- **State Management**: Redux, Redux Toolkit, React Context API
- **Frontend Development**: Responsive Design, Cross-Browser Compatibility, Web Performance Optimization
- **UI Libraries**: Material-UI, Ant Design, Prime-React, Prime-Flex, Tailwind CSS, Bootstrap, Figma
- **Version Control**: Azure DevOps, Git, GitHub
- **API Tools**: Postman, Swagger
- **UI/UX Design Principles**
- **RESTful APIs Integration**

Experience

(Jan. 2023 – Present)

PUNE, MAHARASHTRA

EVERSANA

Frontend Developer

Project Title: NAVLIN Software Product

Description: NAVLIN by EVERSANA is the first comprehensive enterprise software product solution to address global pricing challenges for pharmaceutical manufacturers. The software enables you to take control by making pharmaceutical pricing governance easy across global markets with an easy-to-use workflow process.

Responsibilities:

- Designing, developing, and testing the web application by using the Next.js framework.
- Develop the user interface by using Next.JS, and Redux for SPA development.
- Worked closely with backend developers to integrate frontend with RESTful APIs.
- Designed and implemented reusable UI components to ensure consistency across the application.
- Optimized application performance by analyzing and improving the codebase.
- Designing CSS templates for use on all website pages, collaborating with external CSS resources, and writing manual CSS.
- Conducted code reviews and collaborated with team members to ensure high code quality.

(Sep. 2021 - Feb. 2022)

AJMER, RAJASTHAN

TOSHNIWAL
